

North Rome Christian School

Capital Campaign

Presented by: Karen Holdren

NRCS: Who we are

- The North Rome Christian School (NRCS) is a K-12 non-denominational Christian school in the borough of Rome Pennsylvania.
- The North Rome Christian School is owned and operated by the North Rome Christian School Association; a non-profit organization made up of the parents of North Rome Christian School students.

NRCS: Current situation

- The NRCS currently operates within the confines of the North Rome Wesleyan Church facility.
- Our mission statement is to provide an exceptional faith based education, and continuously expand enrollment.
- Our K-12 students are housed in the main building. The Junior high and high school students co-mingle within the main building and external “learning cottages”.

NRCS: Current Limitations

- The NRCS currently does not have the ability to physically expand, as the NRCS Association only leases our current occupancy space.
- 2 / 4 of our “learning cottages” are in need of repair, and are estimated to be beyond their life expectancies.
- NRCS is currently at our building code limitation, and we are denying registration to potential students.

NRCS: Future Expansion

- The NRCS is seeking to purchase the existing Beacon of Light Care facility in Ulster, PA.
 - This facility is the idled Athens – Ulster Elementary School.
 - This would allow for both current and future expansion goals.

- The NRCS also would like to expand the sports and recreation programs.
 - The proposed facility has ample room to add for a new gymnasium and sports fields for multiple games.

NRCS: Financial Plan

- NRCS is seeking donations equivalent sum of \$1 million to:
 - Purchase the currently listed Beacon of Light Care Facility;
 - Relocation of existing ancillary facilities from the North Rome Wesleyan Church
 - Design and build a new gymnasium

Thank You !
